Straight & Narrow

Teenage Fanclub

You were on the straight and narrow You were going round the bend and looking for a friend

Well you took off optimistic but you landed on your head and now you're walking dead

What did you find In the maze of your mind Did it feel like the end of the road

Cigarettes they burnt your fingers you were weak and you were sore but still you had to score

When they found you in the basement you were face down on the floor and you could take no more

What did you find in the maze of your mind did it feel like the end of the road

Didn't need a second warning When you saw the others die you couldn't even cry
