

Your Love Is The Place Where I Come From

Teenage Fanclub

Your sadness don't lie
Your feelings can't hide
You always know why
But your reasons are sly
You never deny
What you feel inside
I
I disappear when you're not here
In my life

I can't slip away when I see your face
I lose my confusion
Your love is the place where I come from
When I'm on my own I'm lost in space
My freedoms a delusion
Your love is the place where I come from

My sadness don't lie
My feelings can't hide
I just can't deny
What I feel inside
