

## I Was Married

Tegan and Sara

I married in the sun (tell me where tell me where)  
Against the stone of buildings built before  
You and I were born (start again start again)  
To my heart confusion rose against  
The muscles fought so long (fought so long)

To control against the pull of one  
Magnet to another magnet to another  
Magnet

Now we look up in (tell me who tell me who)

To the hours of bodies breaking past  
They seem so very tough (it's a lie it's a lie)  
They seem so very scared of us  
I look into the mirror (look into)  
For evil that just does not exist  
I don't see what they see (tell them that tell them that)

Try to control the pull of one  
Magnet to another magnet to another  
Magnet to another magnet to another
