I Won't Be Left

Tegan and Sara

I won't mistake you for problems with me
I won't let my moods ruin this you'll see
I won't take everything
good and move it away
I won't be left dancing along to songs from the past
Would you stay home and keep
our memories warm with me
Would you give all your love
for a run at the past with me
I know you're sad even though you say that you're not
I know you're scared even though you say that you're not
I won't get mad when you say
things are getting too hard
I won't make all of your love
so scared to come through our yard
I won't scream in my head and let it isolate me
I won't be left dancing alone to songs from the past
Would you stay home and keep
our memories warm with me
Would you give all your love
for a run at the past with me
I know you're sad even though you say that you're not
I know you're scared even though you say that you're not
Would you stay home and keep
our memories warm with me
Would you give all your love
for a run at the past with me
I know you're sad even though you say that you're not
I know you're scared even though you say that you're not
I know you're sad even though you say that you're not
I know you're scared even though you say that you're not
