Proud

Tegan and Sara

Freedom and blood I make my mark and fight for tomorrow Finally I've got something Something I can raise my voice for Fine tell them who you really want Fine well you'll get yours and I'll get mine Proud I'm proud to be proud to see They said proud I'm proud to be proud to be me They said tell me oh you've got to tell me Freedom's rough So we take our stand and fight for tomorrow Finally we got something something we can Bring down the house with Fine tell them who you think you are Fine tell them fine is what you are And when you finally figure out what it is you need You better think of me No no no no When I get up I feel the rhythm in my fingers I get up - I hear the rhythm in my laughter Take a second look You might find that I am stronger Take a second look You might find that you are stronger Imagination inspiration It's only fair that I tell you I plan on leaving here tonight with my pride

It gets me every time with my pride I'm proud to be I'm proud to be me
