

## You Went Away

Tegan and Sara

You went away  
'Cause you said that you can't stand me  
So I went away  
I was sure that you can't stand me

Well I don't think we  
Have to be like this forever  
Is there more to life  
Than love and being together

You went away  
'Cause you said you couldn't love me  
I went away  
'Cause all I do is love you

Well I don't think we  
Have to be like this forever  
There's more to life  
Than love and being together

When my loud guitar comes in  
My thumpin' drums come through  
When my loud guitar comes in  
My thumpin' drums come through

My loud guitar comes in  
My thumpin' drums come through  
Well I don't think we  
Have to be like this forever

There's more to life  
Than love and being together  
There's more to life  
Than love and being together

Is there more to life  
Than love and being  
together  
I went away
