

You Went Away

Tegan and Sara

You went away
'Cause you said that you can't stand me
So I went away
I was sure that you can't stand me

Well I don't think we
Have to be like this forever
Is there more to life
Than love and being together

You went away
'Cause you said you couldn't love me
I went away
'Cause all I do is love you

Well I don't think we
Have to be like this forever
There's more to life
Than love and being together

When my loud guitar comes in
My thumpin' drums come through
When my loud guitar comes in
My thumpin' drums come through

My loud guitar comes in
My thumpin' drums come through
Well I don't think we
Have to be like this forever

There's more to life
Than love and being together
There's more to life
Than love and being together

Is there more to life
Than love and being
together
I went away
