

# Don't Want You To Wake Up

Teitur

Don't want you to wake up  
Stay under the stars  
Where none can make us  
Change what we are

Dreamers in the dark  
Following our hearts

Try to be silent  
My eyes are too loud  
I sit back in my hiding  
While you're in the clouds  
One kiss away from what I have to say

Don't want you to wake up  
Stay under the stars  
Where no one can make us  
Change what we are  
Don't want you to wake up

Its almost the morning  
One foot out the door  
As I let the light in  
To love you even more  
May our minds lose the battle  
And may our hearts win the war

Don't want you to wake up  
Stay under the stars  
Where none can make us  
Change what we are

Don't want you to wake up
