## God, I Have So Many Things To Tell You

Teitur

Mother nature hold me, talk me off the ledge I was raised to believe in what the good book says

And sometimes i'm confused and I don't know what to say Maybe what I'm meant to do is reach out and pray

God, I have so many things to tell you
I know you'll understand

The strength to surrender brings sweet relief I'm stronging off to let go if you're ready to

I know that there's a heaven beyond what I can see I'm not asking for salvation cause I already believe

God, I have so many things to tell you I know you'll understand I've been cynical, I've been pointing fingers left and right, throw me a line and save this drowning man

God, I have so many things to tell you and God, I have so many things to tell you I know you'll understand
