

## Close To You

Telecast

Jesus, come and calm the storm  
It's been raging and I'm feeling worn  
Help me see that I don't need  
Anything but You

Help me walk upon this sea  
That's been raging up inside of me  
Eyes on You, don't let me sink  
Into anything but You

Close to You is where I want to be  
So close Your light envelops me  
Eyes on You, I can walk across the sea  
And lay my life down at Your feet  
That You might be my all in all... be my all in all

The narrow path before me  
Heaven above and hell beneath  
Direct my heart and guide my feet  
Step by step to You

Close to You is where I want to be  
So close Your light envelops me  
Eyes on You, I can walk across the sea  
And lay my life down at Your feet  
That You might be my all in all... be my all in all

And every day in every way  
Oh Lord, I'll find a way to say  
To say I love You
