

Country Lane

Telekinesis

I wanna live on a country lane
Some place where no
One knows your name
I'll forget you too (x2)

I wanna sleep in late
I wanna start from the top
Clean my suede
And I forget you too (x2)

I believe in fate
I believe my brain can converse
I believe it's true (x2)

I can relate

I'm too street
It's something I can't do (x2)

Well I believed in you
And you believed in me
And I know this just happened

It happened (x3)

And I believed in you
And you believed in me
And I know this just happened

It happened (x6)
