

## Lean On Me

Telekinesis

Oh, I'd wish you'd wear that dress  
Go on and ?? the way I dress  
Yeah, I know that you're the one  
A week across the country in our beat up truck  
Stopping every minute 'cause the thing don't run  
But I don't care cause we're in love.

Let's get, let's get away in the night  
I know you count on me  
Well, just lean on me, lean on me every time.

Made it to eternity and about to erase  
Looking for our hopes said you were proud of your sayings,  
We've been there, we're make it right  
Rounding up the cattle and the bales of hay  
Days are sweet and slow, that's our time to praise,  
And you stay there, loving, loving, loving, loving.

Let's get, let's get away in the night  
Let's get, let's get away in the night  
Let's get, let's get away in the night  
I know you count on me  
Well, just lean on me, lean on me every time.
