### Telekinesis

I'm not gonna let you down,  
But I'm not gonna help you up  
It takes so long to turn me around,  
When I think nothing could be wrong  
And then you can't hear me and I can't hear you,  
And then you wander downtown 'bout a quarter to two,  
Well with your head held low and not a thing to do you,  
Gotta give me some time with those one's and two's  
Oh-Oh!

You're like a puzzle that can't be solved,  
Missing pieces never fill the gaps...  
You got the salt and I got the wound,  
But, all you gotta do is ask...  
And there's a glint in your eye, you curl your lip  
Now when you go to shut the door  
And I can't see shit  
And when you start I can't stop,  
Nothing for me to grip  
And when i try to get away,  
You always give me the slip  
Oh-Oh!
