

# Knock Me Out

Temposhark

Nothing I've said before makes any sense now  
I love you  
Nothing I've ever done, no one I've ever met  
No one I've kissed matches up to you, no

Pre-chorus:

I catch your eye in the rear-view mirror  
With one hand on your chin  
Stroking your cheek with one finger  
How I wish you were mine

Chorus:

You knock me out, you knock me out  
So I'll never have another  
You knock me out, you knock me out  
No I'll never have another lover

Hit me like a hurricane }  
Hit me like a bomb, bomb }x2

Nothing I've bought before has any worth now  
I want you  
No match I've ever won, no money I've ever bet  
Nothing I've risked can thrill me like you do

Pre-chorus.

Chorus.

Hit me like a hurricane }  
Hit me like a bomb, bomb }x2

Bridge:

And our love has never been better  
And our love won't fall apart  
And our love has never been better  
And I've loved you from the start

There's only you for me  
Yeah, it's you

Chorus.

You knock me out, so I'll never have another  
You knock me out, no I'll never have another lover
