

Reason To Fake

Ten After Two

See through straight to my heart
Sail on the vessels in my veins
Take in account there's been a change
A coexistence that sustains.

This is the changing,
This is the changing of seasons.

Take one step back and look around
These messes you've made them yourself.

You can outrun mistakes or the messes you've made
My suggestion is "just give it up"
This love is passing like changing of seasons.
Like the changing of seasons
Like the changing of seasons
Like the changing of seasons

Miseries unfold
Miseries unfold and take me down.
Miseries unfold I'll steal the crown.

I'm getting sick, so sick and it bores me.
It's always the same infamous story.
I'm getting sick, so sick and it bores me.
It's always the same infamous story.

So sick it bores me now.

So sick it bores me now.
