

Fall In Line

Ten Foot Pole

Shine your boots
So you can march across the desert

Lift your knees look sharp as a knife
you'll learn to
like it
you'll be all that you can be
No one can stop our way of life

Fall in line
no back talk do what we told you
step in time
learn to show your pride
turn the wrench

Vuuld more trucks than your neighbor
Only work gives the
Right to live

Feeling righteous
Defending gods own country

And wish you had more lives to give
the empire calls
For you to make a sacrifice and fall in line

Rows and rows of credit card loans
Rows and rows of cars
Rows and rows of bars
rows and rows of bones
