## **Giving Gravity A Hand**

**Ten Foot Pole** 

Triple bypass Knocked on his ass The doctor told him not to smoke

He dims the light But late at night Puffing through the tube jammed on his throat Giving gravity a hand

Feels all right, feels all right Cutting life short by making it grand Giving gravity a hand

Giving gravity a hand Feels all right, feels all right Giving gravity a hand One step closer to the promise land, yeah Scars from road rash

Gifts ffom each crash Memory of road grinding my bone I die inside If i can't ride carving through the canyons flying home
