

Nothing To Lose

Ten Foot Pole

As we ride up the mountain I can hear the young ones brag, Just
how much they drank last night and all the little girls they've
had, There's nothing that I'd like more than to teach humilit
y, I'll leave these little bastards in the trees, As we fly dow
n the mountain I can tell it will be close, The new kids have t
hat hungry look my knees are feeling old, I can feel it getting
squirrely as I push for a little speed, I think about my Jose
phine and the money that we need, Last year a friend of mine hi
t a little tree, I keep on saying to myself "It's not gonna hap
pen to me", He never walked the same again, How long till my lu
ck runs out? No fear. no doubts, I never used to worry about al
l the little things that could go wrong, No fear no pain, I jus
t have to ignore the brain, Just go on pretending I have nothin
g to lose, The hairpin turn I see my chance to slide right thro
ugh the gap, One mistake we'll all be gone I never used to thin
k of that, I hit the brakes and pull aside I feel the new kids
sneer, But if they're smart they'll do the same thing in a coup
le years
