

You And Me

Ten Sharp

He's a dreamer
Is what I hear you say
You're the best part of my dreams

When you're talking
With some couleur locale
It's like music to my ears

You and me it's all I ever want
Too far too close
You and me some perfect harmony
Sometimes I feel you show me who I am relentlessly.
You and me

So many hours
I would like to fade away
In the space between your knees

And even sometimes
When we're slightly out of key
I love you for filling up my needs

I wish that I could only see what you want from me
I wish all and nothing, nothing at all
We share a laugh we shed a tear but maybe you don't wanna hear
Another word I say

You and me it's all I ever want
Too far too close
You and me some perfect harmony
Sometimes I feel you show me who I am relentlessly
You and me

There's a difference
In how I feel today
Maybe you need some time

It doesn't matter
Is what I try to say
But I think wish you were mine

You and me
