

Arcadia

Ten

See the sunlight on these golden gates
Step inside another world awaits,
Earth revolved as we evolved to that
Which now remains,
Now we see that our society has come of age

We descended the gods themselves
Made this mountainside our citadel,
Lost to the world
Shaped the rock into these awe inspiring palisades
Spring of life brings light eternal
Time and time again,

Arcadia, pages of history, magical mystery
Shine your light for all to see, this reality, arcadia
Arcadia, ageless simplicity, pure synchronicity,
Now, for all eternity, it can only be Arcadia

Eastern lowlands to the mountain peaks,
Empire further than the eye can see
We took on the world, centuries of civil war
From which we have emerged
Leave us undisputed masters of the universe

Arcadia, sweet land of liberty, timeless antiquity
Shine your light for all to see, this reality, Arcadia
Arcadia, feel the tranquility, grace and humility,
Now, for all eternity, it can only be Arcadia

City shine your light on me
Bright enough for all to see
Now, for all eternity, it can only be Arcadia
