

Give In This Time

Ten

I can't say this kind of line
The words just don't feel natural
They climb, then shatter 'round this heart of mine
Night and day you're on my mind
And in my dreams I'm blinded by your light
Don't tear this world apart tonight

Yes I've heard that love is such a rocky road
Still, walk with a while and you'll find
That my words are carried on the wings of hope
The one time only kind

Fire burnin' bright light up the night
Come on
Two stars the same, so fan the flames
Come on... give in this time...

When I try to speak I find
The things I say seem so contrived
I find the stumble when I try to fly
God knows just how hard I've tried
But failed to tell you how I feel
Inside...
I wanted to a thousand times

If you can be gentle with this heart of mine
I'm finally stepping into the light
In your hands you carry what I've tried to hide
But just can't keep inside

Fire burnin' bright light up the night
Come on
Two stars the same, so fan the flames
Come on...give in this time...
Fire burnin bright, this satellite
Come on
Two stars the same, don't fight in vain
Come on... give in this time...
