

This hell you raise,  
Your red hot ways,  
Could be the death of me,  
A loss of sanity,  
I know you tease  
And this is ecstasy,  
You always turn me on,  
You make my motor run,  
Caught up in your passion every night,  
Little darling you're insatiable,  
My little honey you're insatiable,  
Just feed my need,  
You beg and plead,  
This living fantasy,  
A life between the sheets,  
It's not a dream,  
Oh how you dress for me  
Is perfect and obscene,  
And you always burn beyond,  
Even when I think I'm done,  
You excite,  
Bringing all my senses back to life,  
Little darling you're insatiable,  
I know our love will always be the one,  
When kindred spirits fall they seal a bond,  
You and I, until dawn breaks out it's light  
Become insatiable,  
And you always burn beyond,  
Even when I think I'm done,  
You excite,  
Bringing all my senses back to life,  
Little darling you're insatiable,  
I know our love will always be the one,  
When kindred spirits fall they seal a bond,  
You and I, until dawn breaks out it's light  
Become insatiable,  
Through the hot undercover nights  
In your heart and your soul,  
Be the light in my lover's eyes,  
Who's insatiable
