

Look into my eyes,
Do you fear me?
For centuries this web was spun,
Like a god in supreme ascension,
So release the dead and run
From The Necronomicon
Death is such a surreal adventure,
Right now, right now
Caught in celestial Angelfire,
Right now, right now
Pawns in terrestrial gains empire,
Right now
Look into the skies
And see clearly,
Travel space and time,
Can you hear me?
Share the feast of flesh as one
'Till the beast is fed and done,
Feel the blood engineer sensation,
Deep within still waters run,
Acquiesce to the real temptation,
Right now, right now,
Caught in celestial Angelfire,
Right now, right now,
Pawns in terrestrial gains empire,
Right how, right now,
Caught in celestial Angelfire,
Right now.
Look into my eyes,
Do you fear me?
Right now, right now,
Caught in celestial Angelfire,
Right now, right now,
Pawns in terrestrial gains empire,
Right how, right now,
Caught in celestial Angelfire,
Right now, right now,
Pawns in terrestrial gains empire,
Right how, right now,
Caught in celestial Angelfire,
Right now, right now,
Pawns in terrestrial gains empire
Right now.
