

Sail Away

Ten

Life was an endless fight,
Just a losing battle on the wings of time
And life was a turning tide
Till you whispered softly that your heart was mine

I light a candle every winter's night,
Through the cold,
Let it burn for all to see
Knowing deep in my dark despair
You were there for me,
Lady...

Sail away across the sea of our misfortune,
Seize the day and cast the darkest hours behind us now,
Sail away across the sea of our misfortune,
Sail away my love
Sail away...

You are my guiding light
Like the seasons change, you bring my world to life
And you give me peace inside
In return I'll give you all my love tonight

I will stand beside you, wrong or right,
I'll be strong,
All you need a man to be
For this torn, tattered heart is yours
For eternity,
Baby...

Sail away across the sea of our misfortune,
Seize the day and cast the darkest hours behind us now,
Sail away across the sea of our misfortune,
Sail away my love
Sail away...
