

## Soliloquy/The Loneliest Place In the World

Ten

You're my life, my past, my future  
No-one can come close to you  
Words are hard to summon  
But I've never loved a woman  
How I love you  
So completely true

There are books of lives and lovers  
Mine begins and ends with you  
There between the covers  
Lies a love so many others  
Only dream to feel  
But for us it's real

So shelter me in your caress  
Our love outshines the diamond  
Pales the pearl  
Any place without you near  
Is the loneliest place in the world

Under you, my guardian angel  
I have built a pedestal  
As my soul companion  
There's a canyon setting you  
And womankind apart  
Deep within my heart

So shelter me in your caress  
Our love has weathered storms  
And still come through  
But isn't that the way it is  
I'm not trying to hide  
What I'm feeling inside  
I can't live without you  
There's nowhere to hide

When the coldest steel is emptiness  
Without your love my life would be absurd  
For I can see beyond the tears  
To the loneliest place in the world

You are the girl who means the world to me  
You're the most beautiful there's ever been  
You have it all my love, you're all I see  
Oh believe in me  
There's no way but you darling  
Nothing can keep us apart

Through the years the pen is showing  
Every line dries hard and yet  
Let the pages crumble  
For as long as ink is flowing  
I will never let  
You have one regret

So shelter me in your caress  
Our love has weathered storms

And still come through  
But isn't that the way it is  
I'm not trying to hide  
What I'm feeling inside  
I can't live without you  
There's nowhere to hide

When the coldest steel is emptiness  
Without your love my life would be absurd  
For I can see beyond the tears  
To the loneliest place in the world  
In the world

Oh, in the world
