

# The One

Ten

Pyres in the night,  
Burning slowly,  
Candlelight crawls across her lips to beg a kiss,  
Sighs,  
She's alive,  
She flows, she's elemental  
She's a gift,  
She's a granted wish,

Tied by the eyes,  
Silken ribbons brace the lines  
Of shadow tracing shapes that lie within,  
Bound,  
Tantalised,  
She knows, she's monumental,  
In a spin,  
Unafraid of sin,

If the dream seemed impossible,  
Then she found a way somehow,  
Once I looked through the eyes of love,  
I embraced the 'one true now' &

Take, take me, get on, she cries,  
Break, break me, your fears can't hold you,  
Make, make me, the one tonight  
Shake, shake me, your tears controlled you,

Writhe in the night,  
Climbing slowly to the heights,  
Sacred in the ecstasy of this,  
Cries,  
Hypnotised,  
She glows, she's warm and gentle,  
So I drift,  
In the endless bliss,

Wired to the mind  
By the manacles of time,  
Perfect her embrace,  
I'm like a king,  
Crowned, canonised,  
She shows, it's fundamental,  
Never pin down an angel's wings,

If the dream seemed impossible,  
Then she found a way somehow,  
Once I looked through the eyes of love,  
I embraced the 'one true now' &

Take, take me, get on, she cries,  
Break, break me, your fears can't hold you,  
Make, make me, the one tonight  
Shake, shake me, your tears controlled you
