

## Till the End of Time

Ten

Girl I love you more than words can say  
If I lost you then my heart would break  
You are part of every breath I take  
Till the end of time  
Girl I never want this night to end  
You're my everything, my only friend  
I will never love this way again  
Till the end of time

End of time, end of time  
I love you so, I can't let go  
No I wouldn't even try  
So tonight don't you cry  
This heart and soul you have and hold  
Till the end of time

There are moments in our nights and days  
When the world can seem so far away  
Here beside you where I want to stay  
Till the end of time

End of time, end of time  
I love you so, I can't let go  
No I wouldn't even try  
So tonight don't you cry  
This heart and soul you have and hold  
Till the end of time

I love you so  
No matter where you go  
Till the end of time
