

Valentine

Ten

My lover and my friend
I'm broken once again
I've lost the will to mend, oh baby
For now this world is through
I've saved the best of me
So all I need is you, oh baby

For you and I the key is for eternity
You make the dark seem closer to the light
You stole my heart you see
So take what's left of me
Come love me... sweet valentine

So let the world lament
The precious time we spent
Two stars that came and went, oh baby
Eternal requiem
I'll never find the strength
To love like this again, oh baby

If you could only see how much you mean to me
If for a moment our lives could entwine
I'd give the world to be beside you endlessly
My one and only... sweet valentine

For you and I the key is for eternity
You make the dark seem closer to the light
You stole my heart you see
So take what's left of me
Come love me... sweet valentine

If you could only see how much you mean to me
If for a moment our lives could entwine
I'd give the world to be beside you endlessly
My one and only...

Sweet valentine
