

## Castles In The Sky

### Terminal Choice

You're laying next to me  
I look into your eyes  
but everything I see  
is what I never wanted  
(...what I never wanted...)

So I have to find  
a way out of here  
I want you dead  
you destroyed my life  
(...you destroyed my life...)

I build up castles in the sky  
I know you can't reach them  
I don't believe that you can fly  
and I'm not the one to teach you  
I keep you deep inside my heart  
you're the one that makes me sad  
I can't stand it anymore  
but you never see me cry

I cut you into pieces  
your blood spread on the wall  
I hope you rest in peace  
now my work is done  
(...now my work is done...)

I build up castles in the sky  
I know you can't reach them  
I don't believe that you can fly  
and I'm not the one to teach you  
I keep you deep inside my heart  
you're the one that makes me sad  
I can't stand it anymore  
but you never see me cry

I build up castles in the sky  
I know you can't reach them  
I don't believe that you can fly  
and I'm not the one to teach you  
I keep you deep inside my heart  
you're the one that makes me sad  
I can't stand it anymore  
but you never see me cry
