

## My way

## Terminal Choice

i can see the pain you feel  
i can see the fear inside  
i can see you're hating me  
i can see your growing rage

you want to run  
but you can't  
because your body  
is taked up in chains  
yes my dear  
what you can expect  
it want hurt me  
but maybe you

this is my love that you feel  
this is my steel that you feel  
this is my liquid in your face  
that's your blood on the floor

this is my love that you feel  
this is my steel that you feel  
this is my liquid in your face  
that's your blood on my lips

this is my way to say goodbye  
no future for you  
no love for me  
there's no need for you to cry  
enjoy your trip to eternity
