

## Miss Louisiana

### Terminal

I've been twice on the highway  
Back to Texas, with heaven behind me  
And it's a shame on our anniversary  
We've nothing left to celebrate

Darling, I can't replace you

I have to keep on moving  
Or I get lost in all I'm losing  
I stay, drifting through my head  
With the static you left

Give me closure  
It's all I want from you
