

Not All Bad

Terminal

I barely know you from a stranger but I
Here now ask the friend to talk

Nothings quite as hard
As you've been on yourself
Just stay here

Couldn't we all use the company
When days don't last
Couldn't we stand to hear someone say
We're not all bad

Let's catch a movie
Something to make us love again

Let's stay out all night
Go everywhere we took
Live while we're alive
And take the world for more
For more

When the sun is coming up
And we're still hanging out
It's never been so nice to have someone around
Who believes in love

Lets not make it home tonight
Because days don't last
