

## Not All Bad

Terminal

I barely know you from a stranger but I  
Here now ask the friend to talk

Nothings quite as hard  
As you've been on yourself  
Just stay here

Couldn't we all use the company  
When days don't last  
Couldn't we stand to hear someone say  
We're not all bad

Let's catch a movie  
Something to make us love again

Let's stay out all night  
Go everywhere we took  
Live while we're alive  
And take the world for more  
For more

When the sun is coming up  
And we're still hanging out  
It's never been so nice to have someone around  
Who believes in love

Lets not make it home tonight  
Because days don't last
