Not All Bad

Terminal

I barely know you from a stranger but I Here now ask the friend to talk

Nothings quite as hard As you've been on yourself Just stay here

Couldn't we all use the company When days don't last Couldn't we stand to hear someone say We're not all bad

Let's catch a movie
Something to make us love again

Let's stay out all night Go everywhere we took Live while we're alive And take the world for more For more

When the sun is coming up
And we're still hanging out
It's never been so nice to have someone around
Who believes in love

Lets not make it home tonight Because days don't last
