

## Watching, Wasting, Waiting

Terminal

Watching you taking your time  
Wasting mine just waiting on you  
Misery might keep me hanging around  
If you're never gonna let me live this down

Every train I take, stops the same place  
Right where you are

It's been a long time but I hear  
You don't wander far  
From lonesome hours at the bar  
Call to ask me why I never come around  
When are you gonna let me live this down?

I was tired of lying alone for you  
So I became a desert to your raining  
Finding myself in the sun  
I became a desert to your raining  
'Cause I don't want to be the one

Watching you taking your time  
Wasting mine just waiting on you  
You always keep me hanging around  
You're never gonna let me live this down
