## For Ever With You

**Terrace Martin** 

Let's spend this day together Loving each other Let's be seen together Loving each other

All we have is love and time I'll make your play and you'll make mine All we do is laugh and talk Together, I just wanna be together forever with you, Forever with you, forever with you I just wanna be together forever with you, Together, forever with you

Your heart, your mind, your body, your soul There is no place I rather go or be I'm here for you Nothing else I want to do, I say nothing else I want to do

All we have is love and time I'll make your play and you'll make mine All we do is laugh and talk Together, I just wanna be together forever with you, Forever with you, forever with you I just wanna be together forever with you, Together, forever with you

I just want to play with you Baby can I play with you? Forever with you, forever with you I just wanna be together forever with you, Together, forever with you
