

## Over Time

Terrace Martin

Man heh, cupid played a trick on me  
Figure she would be the one but that's history  
And ours didn't cause I didn't remember that  
Loving is a given, not love, not friendship  
Even when you'd give it all, momma said use your senses  
Now I'm sittin here wishin that I shoulda paid attention  
(Juslisen)

First time I saw a dream, I  
looked her in her eyes  
She was so thick, but what I fell for  
was her beautiful mind (beautiful mind)  
Next thing I knew (I knew)  
We were inseparable (inseparable) So...  
You could imagine if you were me  
That I never thought, we would fall apart  
And the strangest thing  
Couldn't tell you what happened to us  
All I can tell you is

Love - can - change - overtime  
Love - can - change - overtime  
(So...) If you fall in love  
Just keep in mind, it can change overtime  
(So...) If you fall in love  
Just keep in mind, it can change overtime

I never knew a la-la-love, a love like this  
Tailor-made for my rainy days, you a perfect fit  
You're heaven's gift, how I get so lucky?  
You heard rumors 'bout my foul ways and you still trust me  
You still love me, heh, well nothing ever changed that  
As much as we separate, we always get right back  
As if we never left, you ain't gotta second guess  
I know it's taking a toll on you but you ain't gotta stress  
Empty promises, her heart don't get a moment's rest  
She stay in suspense, she's scared of what's next  
That process numb the feelings to my nonsense  
Now I'm tryna act right, you're not responsive  
You don't call, you don't text, no love, not even sex  
What I'm 'posed to do? Sit around and wait for you?  
He say love don't hurt, but emotions do  
(I'm telling you...)

Love - can - change - overtime  
Love - can - change - overtime  
(So...) If you fall in love  
Just keep in mind, it can change overtime  
(So...) If you fall in love  
Just keep in mind, it can change overtime
