## **No Fear (Live Version)**

I want a road stretching out before me I want a radio in my ear I want a full tank of absolution No fear I want a rainstorm to pull me over Then a sky that begins to clear Towards the truest of destinations No fear

I used to hit every wall there was I used to run away from love All I ever wanted was right here But I had to reach way down inside I had to have faith I'd find No fear

I want the world to just keep on turning I want the dawn in my rear view mirror I want to hear my own voice singing No fear And when I need two arms around me And theres no one near When I'm alone let the only sound be No fear

I used to hit every wall there was I used to run away from love All I ever wanted was right here But I had to reach way down inside I had to have faith I'd find No fear

I want peace, Love and Understanding A stogie and an ice-cold beer Don't want to live afraid of dying I used to hit every wall there was I used to run away from love All I ever wanted was right here But I had to reach way down inside I used to stay up all night long Wondering what I was doing wrong All I ever needed was right here But I had to reach way down inside I had to have faith I'd find No fear
