

## Tear It All Down

Terri Clark

We built a little playhouse with a front porch swing  
A white picket fence, the American dream  
Step by step, stone by stone  
And now you're tellin' me that you wanna be alone  
The walls are fallin' all around me now  
You wanna.....

Tear it all down  
Tear it all down  
You're rippin' out what we put up  
Demolishing this house of love  
Tear it all down  
Tear it all down  
When your soul foundation cracks  
It's hard to put the pieces back  
When you tear it all down

Before this thing crumbles, you better think it through  
'Cause you're gonna have to live with what you can't undo

Day by day, night after night  
The truth is gonna hit you right between the eyes  
You're gonna see the wreckage all around  
When you.....

Step by step, stone by stone  
We built this house into a home  
For you to.....
