

## The Inside Story

Terri Clark

The rumor going 'round  
Is that I haven't shed a tear  
But don't they know you can't believe  
Everything you hear  
'Cause ever since you left  
I've been a master of disguise  
I may be smiling on the outside  
But don't look into my eyes, 'cause...

The inside story  
Is as clear as black and white  
I still dream about you  
When I turn out the lights  
The news out on the street  
Says you didn't break my heart  
But the inside story  
Is tearing me apart

I thought maybe there was something wrong  
That we'd work out in time  
And looking back I can see  
I didn't read between the lines  
And now my pride helps me hide the pain  
So it's not written on my face  
When we pass I'll pretend your memory  
Was easy to erase, but...

The inside story  
Is as clear as black and white  
I still dream about you  
When I turn out the lights  
The news out on the street  
Says you didn't break my heart  
But the inside story  
Is tearing me apart

Oh, the inside story  
Is tearing me apart
