This Ole Heart

Terri Clark

This ole heart was made like a train But this ole heart is flesh and blood Gets in trouble when it cares too much Keeps it hangin' on when it oughta give up On something that's past

I wish it had wheels and I wish it had wings Cause I could sure use just one of those things Then this danged ole fallin' out love Wouldn't hurt so bad But this ole heart ain't made like that

If this ole heart was like an ole tin roof Beaten by the rain, weathered and used A fresh coat of paint would make it new If this ole heart was lik an ole tin roof

But this ole heart is felsh and blood Gets in trouble when it cares too much Keeps it hangin' on when it oughta give up On something that's past

I wish it had wheels and I wish it had wings Cause I could sure use just one of those things Then this danged ole fallin' out love Wouldn't hurt so bad But this ole heart ain't made like that
