## Terror Squad

Yo, I'ma lay the law with A.K.'s or metaphors  
Make way for the ghetto roar, these days I set it off  
Y'all hardcore, that's why I batter you all  
Shatter they jaw, batter the core to make a fatter than yours

Terror Squad to my death, tombstone on my chest  
With the chrome in the vest, alone or with T.S.  
I'ma rep it, I'm a Dominican, now you accept it  
It's like you seen death and chose the Lord as the shepherd

You skeptical, niggas on the block ain't respectin' you  
Checkin' you, ain't gonna stop when they deckin' you  
Who gon' dock you? I'm comin' at you like a tackle  
To leave a personal scar in your chest like a tattoo

Seis'll clap you, put your dick in the dirt  
Click at a herb when I spit a clip and rip through your shirt  
I'm the worst of the beast, put my work on the streets  
Do the work with the heat, don't make me burst through your meat

I kill alive for my twin, bust ill and do the time for my twin  
Trust that it's real and he'll be at my side at the end  
I got guns that'll silence your men  
We bust off and let the begin, aight then

I kill alive for my twin, bust ill and do the time for my twin  
Trust that it's real and he'll be at my side at the end  
I got guns that'll silence your men  
We bust off and let the begin, aight then

Yo, yo, Seis come off with a thunderous start  
Punish niggas from the heart, rip a niga from the sparks  
Of the glizze, leave a nigga clapped on 'Rap City'  
I'm strapped with the Mac Milli, you wack as ass Gilly

It ain't hard to scrap, my squad's the vanguard of rap  
Love to guard your back in the biz, the triz in the back  
Flamboyant, never givin' a slack, I jam joints when I live on a track  
Ran point when they gave me the Mac

I'm on fat, never lack the realness, I sing that B.J. killer ill shit  
And still rock a nigga, I'm out to be real rich  
You feel this, shaper than a tooth pain, double-deuce pain  
My verse take aim, blow your fame with a burst of flames

Ain't nothin' changed, I die in this game  
Take the stand and the blame for my man  
I carry the name revenge  
Terror Squad in begets carved on my chain

I kill alive for my twin, bust ill and do the time for my twin  
Trust that it's real and he'll be at my side at the end  
I got guns that'll silence your men  
We bust off and let the begin, aight then

I kill alive for my twin, bust ill and do the time for my twin  
Trust that it's real and he'll be at my side at the end

I got guns that'll silence your men  
We bust off and let the begin, aight then
