Mind At War

Terror

There's conflict
Surrounding me
Within myself
And on these streets
Everywhere I look
Disease spreads
My mind at war
Begins again

There's war inside my head
There's war out on these streets
There's war between wrong and right
Now there's war between you and me

Caught in my thoughts
Just damaging
Exterminate
My suffering

There's war inside my head
There's war out on these streets
There's war between wrong and right
Now there's war between you and me

My mind's at war again
Tell me how I can win
I'm feeling paralyzed
Trapped in the lows and highs

Mind at war
