

## No One Cares

Terror

Attention thats your only friend  
Every move you make, you want it seen by them  
And you soeak so loud, so we know what you're about  
Now all eyes are on oyu, still you never made a sound  
No one cares  
About all the shit you do  
No one cares  
You look like a fool

Always know the right ones  
Always front and center, wasting space  
Throwing your opinions, drawing them in  
Making sure that we see your face

No one cares what you do  
No one cares about you
