

One Step Behind

Terror

Relentless, they're forcing in
Now it's over, now its ever
Under pressure, they drop the hammer again
So much closer, so much closer tyo me
One step behind, one step behind
I've got to cover my tracks

Mindless, so they call me
They've got me cornered, gor me cornered
Empty, so they steal to breathe
Just get it over, get it over

Don't you ever look my may
And don't you say the words I say
Never will you tread on me
You'll always be one step behind of me

One steo, one step behind
