

# Return To Strength

Terror

This world's a fucking nightmare  
It brings us nothing but pain  
Chasing dreams that don't exist  
And everything's not what it seems  
Try and draw me off my path  
Look what's become of me  
Can't deny the damage I've caused  
Gotta balance my reality

Destroy your fucking world  
It brings us nothing but pain  
Hardened wills, force fed lies  
Resistance, return to strength  
Return to strength

Ill tempers fill my mind  
I've grown through this pain  
Hard pressed to desperation  
Too late for apologies

Destroy your fucking world  
It brings us nothing but pain  
Hardened wills, force fed lies  
Resistance, return to strength

Destroy your fucking world  
I've grown through this pain  
Hardened wills, force fed lies  
Resistance, return to strength

I put the worst behind me  
Crossed out what I no longer need  
Life isn't always fair  
Back to the essence as I prepare to

Destroy your fucking world  
It brings us nothing but pain  
Hardened wills, force fed lies  
Resistance, return to strength

I've grown through this pain  
I've grown through this pain  
Too late for apologies  
Resistance, return to strength  
Return to strength
