

Trust No Face

Terror

Trust no face
Or disguise
I'm not leaving, no compromise

Screaming out
But nothing helps
You push on to survive
Better days never came
It's eating you alive

Screaming out
But nothing helps
You push on to survive
Better days never came
It's eating you alive

Push on, push on
I've seen better days
Break away

Take by force
Take what's yours
Violent thoughts
Like a storm
Every day
No remorse
