

# What Have We Done

Terror

What the fuck have we done?

I've got broken arms  
Not longer can I take the weight  
My eyes are blinded  
I've seen so much shit and I can't relate

It's getting hard to breathe  
Sickness it floods our streets  
There's death everywhere  
How much should I care?

What the fuck have we done?  
I can't believe  
What the fuck have we done?

As humanity falls  
Well, I blame us all  
The innocent is our pray  
No one is safe

Where's the end, bring the end  
Am I dead yet  
As we fill our dreams  
We destroy everything

What the fuck have we done?  
I can't believe  
What the fuck have we done?

What the fuck have we done?  
I can't believe  
What the fuck have we done?

[Incomprehensible]  
Well, I can't believe in anything  
The poison is inside of me  
It's got a hold of everything

What the fuck have we done?  
I can't believe  
What the fuck have we done?  
I can't believe  
What the fuck have we done?  
Have we done
