

Satellite City

Terrorgruppe

satellite city - suburbia
concrete wall utopia
city center - two hours distance
wake up - work - go sleep - existence

satellite city - suburbia
"why are we here, mum & pa?"
the men who built this were insane
the road to nowhere's got 10 lanes

shopping centers - towerblocks
living in a concrete box
it's where we belong to
stuck in like a pot of glue

drugstores, malls and plastic bags
highways, car wash, parking decks
it's where we belong to
stuck here - "with a nice view"

satellite city suburbia
teenage fears - insomnia
smalltown minds and prejudice
dead end street necropolis

satellite city - suburbia
gang warfare phenomena
out of school and into prison
architectural modernism

shopping centers - towerblocks
living in a concrete box
it's where we belong to
stuck in like a bowl of glue

drugstores, malls and plastic bags
highways, car wash, parking decks
it's where we belong to
stuck here - but "with a nice view"

take your shit and let's prepare
we go elsewhere , anywhere
cause anywhere's better than here
it's time to disappear
we've lost so many years

leaving this suburban nightmare
we go somewhere , anywhere
cause anywhere's better than here
let's go and disappear
we've lost our best years
