

Don't cry baby rest your weary head
Don't cry mama daddy didn't mean what he said
Wake up baby it's a brand new day
Wake up mama I think he's gone away
And it's always on my mind we're only human

What do you want it's more than I can give
Man I'm just a human being

What makes a man bruise his loving wife
What makes a man want to take his own life
And it's always on my mind we're only human

What do you want it's more than I can give
Man I'm just a human being

I wish I'd been to woodstock
Or written wild thing
I wish I'd shot the pope dead
Or killed a foreign king
And it's always on my mind we're only human
